

KTC started in 1972 from a grocery store in the heart of England. From humble beginnings we have always prided ourselves on providing the finest foods to help you create authentic cuisine wherever you are in the world.

Today we are proud that our products are widely regarded as truly essential ingredients.

PRODUCT GUIDE 2019

Essential Ingredients Since 1972

We supply over 250 million litres a year of high quality cooking oils and fats to the food industry.

We import, pack or distribute a wide array of ethnic and mainstream food products to manufacturers, retailers and wholesalers throughout the United Kingdom and the rest of the world.

Our success is based upon understanding the needs of our customers and our commitment to this has been the key to effective growth in an increasingly competitive international marketplace. We are experts in the provision of ethnic and mainstream food products. Our extensive portfolio covers the entire spectrum of food, from the everyday to the unexpected.

We pride ourselves on offering all of our customers first class food products manufactured and packed to the highest quality. Both our Wednesbury and Liverpool manufacturing sites are accredited by the British Retail Consortium. Our strict Supplier Approval and Quality Control procedures mean that we only buy raw materials and goods from manufacturers operating to the highest possible standards in safety, hygiene and quality. Our ability to react quickly to new market trends puts us ahead of our competitors in terms of innovation and dynamism.

Our well-known flagship brands, KTC, Sea Isle and Suncrest make up our core product range, along with a number of oil and fats brands that have consistently performed well over the last four decades. We also distribute a select range of niche food products on behalf of supplier partners around the world.
